Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 10, and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by JP54-127769.

Referring to Fig. 1 especially, JP'769 discloses a cooking device comprising a steam generating means 13, 14, an outer circulation passage with a blower 24 and heater 22 which send superheated steam back into the cooking chamber, and both radiant 17 and convection 22 heating means which can be used independently of the steam generating means.

Claim Rejections - 35 USC § 103

Claims 2-9, 11, and 13-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP'769 in view of JP54-123749.

The claims differ from JP'769 only in calling for various timed sequences of steam and radiant or convection heating stages. However, JP'749 discloses a timed 2-stage process of superheated steam and then radiant cooking. It would have been obvious to utilize steam and then radiant or convection, or any sequence of radiant and/or convection and steam heating, depending on the type of food being cooked, and strictly accord with cooking requirements known to the artisan – i.e., the cook.
